

1 Prague Apartments – A Great Choice For Families

Are you travelling with children and looking for accommodation in Prague? Do you want privacy yet still be in the heart of Prague? Are you looking for an alternative to hotels? If you've answered "yes" to any or all of these questions, we have just what you're looking for!

If you're travelling with young children, you'll obviously need to take their needs into account. Many Prague hotels can help with childcare, but such services are often expensive. However, our apartments offer you high-quality, well-priced, child-friendly accommodation in the centre of Prague.

We're family-friendly

Because they offer the privacy and comfort of home, our Prague apartments are ideal for families. Your children have plenty of space and can sleep in their own rooms, so you needn't worry about disturbing them. You can hire a babysitter (ask for recommendations from your accommodation provider), and if she is a student, there is room for her to study while the children are sleeping. If you need to take your children home for their afternoon nap, you don't have the hassle of going through reception, and the central location of our properties makes returning home convenient.

Other benefits of Prague self-catering apartments

Our apartments aren't just family-friendly, they're wallet and suitcase friendly too! An apartment with several rooms generally costs 50% less than one hotel room, which is often small. Accommodation agencies also offer lower nightly rates than hotels, making longer stays possible, and you don't need to worry about tipping hotel staff. What's more, you can carry less luggage: you can pack fewer clothes because they can be washed at your apartment, or at the laundry services offered by some apartments.

When it comes to cooking, your kitchen is open 24x7, so you don't need to pay high prices for food and drink, and you can avoid expensive mini bar charges. The kitchens of our properties are fully equipped, so if you like cooking you can make use of this facility.

Having your pet with you can make you feel at home, and pets are welcome in some of our apartments. So, if you want to bring a four-legged friend with you, look for the "pets welcome" symbol on our website.

Booking at the click of a mouse

Our Prague Apartments website offers a wide range of holiday apartments with full descriptions and availability calendars. It also features pictures of the properties, floor plans, maps, videos and guest reviews. You can book at the click of a mouse, using our user-friendly online booking system.

Why not take a look at our Bohemia Apartments website? You'll be pleasantly surprised when you compare the quality and price of our apartments with those of a hotel room!
